- ✓ A medical kit that has everything I need in times of mini-crisis, including a nail clipper and a nose unblocker!
- ✓ An all-purpose stroller with a removable bassinet that's lightweight and super-easy to manoeuvre... please.
- ✓ A baby book that prompts me to note down all the important things, like the date they first try Vegemite!
- ✓ A cot bumper that is safer than the rest, with a breathable mesh fabric that is collapsible to prevent climbing.
- ✓ A compact baby bag that keeps everything I need in a cute, convenient pouch.
- ✓ A bib that covers all bases.
